

The Vagina Monologues

MYTH #5

Vagina Monologues opponents are
anti-feminist

False. Those who oppose V-Day and the Vagina Monologues are pro-woman. We reject the effort to convince women to think of themselves solely as sexual objects, and we reject the claims the monologues bring attention to the serious issue of violence against women.

The suffragettes—the original feminists—fought hard for equal rights and treatment under the law. They fought against the notion that a woman is reducible to her body parts. Opposition to this play honors their efforts, because **women are more than just the sum of their parts.**
